

Australian solar container outdoor power custom manufacturer

Overview

At Modbox, we design and build shipping container solar solutions to securely house your solar panels, batteries, inverters, and other equipment. Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions. The solar array is mounted directly onto the container, and can provide both off-grid and grid-tied functionality, with all necessary equipment to ensure safe and. Australian Solar Container technology is changing how people get off-grid energy. Australia is very big and has tough weather. Some towns are far away from cities. Many places pay a lot for energy.

Australian solar container outdoor power custom manufacturer
