

Bahamas off-grid solar

Overview

From Nassau to the Family Islands, we supply premium solar panels, inverters, and batteries to installers across New Providence, Grand Bahama, Abaco, Eleuthera, and beyond. Explore our comprehensive range of high-quality solar equipment for your renewable energy needs. An off grid solar electric system is perfect for people whose home is far from the utility grid. It is also a perfect system for those who desire true energy independence and are willing to live in an energy efficient and mindful way. Using Sol-Ark® powerful hybrid inverters and HomeGrid battery energy storage, this project cut inflated energy costs and environmental. The islands enjoy an average of 350 sunny days per year, making them an ideal location for solar energy installations. An islands wide grid system operated by Bahamas Power and Light (BPL) is available on New Providence (Nassau) using a gas turbine engine while 23 islands have diesel generators. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs.
