

Battery hybrid energy storage in Cebu Philippines

Overview

The East Asia Utilities Corporation (EAUC) facility at the Mactan Economic Zone in Lapu-Lapu City, Cebu. This site is set to host a hybrid Battery Energy Storage System (BESS), poised to help deliver more stable power to the Visayas grid. It will be integrated into an existing operational thermal power. Slated for commissioning in the first half of 2026, the project is poised to become one of the first large-scale energy storage systems in Central Visayas. MANILA, Philippines — Aboitiz Power Corp. is building a 30-megawatt hybrid battery energy storage system (BESS) project within the Mactan. In a strategic move valued at approximately \$21 million, Aboitiz Power is integrating BESS technology into its existing thermal plants, a model for clean energy that is being closely watched by national utilities as a blueprint for climate-resilient infrastructure. broke ground on a pioneering P1.
