

Brazil energy storage manufacturing foundation project

Overview

Brazil's push to integrate energy storage into its power system is moving from pilot deployments toward industrial scale, with WEG confirming plans to build a dedicated battery energy storage systems manufacturing plant in Itajaí, Santa Catarina, backed by 280 million reais in financing from the Brazilian National Bank for Economic Development. The new plant will increase WEG's BESS production capacity to up to 2 GWh. Construction is expected to be completed in the second half of 2027. The company aims to serve both the large-scale storage market and the commercial and industrial (C&I) segment. "The introduction of a new manufacturing plant dedicated to the production of battery energy storage systems (BESS) in Itajaí, Santa Catarina. While a harbinger of good news from a sustainability perspective, the introduction of
