

# British energy storage battery manufacturing plant

## Overview

---

Preparations are progressing for the Tata Group's UK 40 GWh battery cell factory in Somerset. The plant is scheduled to open in 2026. 10 kWh sodium-metal-chloride batteries will be built at new site in Lancaster, England. Start-up LiNa is targeting markets with harsh climates during initial rollout and intends to produce 100 kWh systems following 10 kWh trial projects. A year ago, Tata's battery subsidiary Agratas announced. While battery companies across Europe face growing pressure, UK-based LiNa Energy is quietly rewriting the playbook. Today the company officially opened its first-of-a-kind salt battery manufacturing plant in Lancaster – marking a significant milestone in the company's journey to bring its. UK-based LiNa Energy has officially opened a groundbreaking sodium battery manufacturing facility in Lancaster, marking a pivotal step in its mission to commercialise its innovative technology on a global scale. AESC, Nissan's battery partner, is behind the £1 billion (\$1.
