

Can photovoltaic panels be shipped now

Overview

Solar panels can ship via air, sea, rail or truck depending on needs. If you're a distributor, manufacturer, or contractor, you need to know how to transport solar panels safely. We'll help you get material. Solar modules are shipped in containers and others that helps to protect them from the elements and keep them secure during transit. Unfortunately, the protocol for transporting PV modules that would become a standard for everybody hasn't been developed yet. We do NOT provide shipping to South America, Europe, Africa, the Middle East, or Asia.

Can photovoltaic panels be shipped now

Shipping Methods and Policies

Due to their size, weight, and handling requirements, most solar panels are packed on a pallet or skid and shipped via freight carrier. UPS and FedEx are not options for shipping of most solar panels.
