

Clean electricity bangkok

Overview

Bangkok Governor Chadchart Sittipunt officially launched the “Bangkok Solar City” initiative on Saturday, November 8, 2025, marking a major step toward transforming the capital into a low-carbon city powered by clean and sustainable energy. Prasert Sinsukprasert, energy permanent secretary, expects the PDP to take effect from 2025 to 2037, with enforcement starting by the end of. Thailand has adopted ambitious clean energy targets to meet its long-term climate goals, committing to reach carbon neutrality by 2050 and net zero greenhouse gas (GHG) emissions by 2065. This plan consists of 3 main axes as follows: 1. Facilitate people in installing solar cells. □ Installed on. Thailand's new National Energy Plan (NEP) aims to drive significant investment and promote clean energy, with a projected 2.
