Community microgrids sofia

Community Microgrid

There are many communities in the world vulnerable to natural disasters, however, they require support and expertise to develop microgrids. Using our technical, regulatory and policy expertise on community energy ...

Community Microgrids

This paper conceptualises existing literature on community microgrids, focusing on the representation and inclusion of community preferences, needs and behaviour across the ...

Community Microgrids

To achieve our Community Microgrid vision, the Clean Coalition is designing and staging numerous Solar Microgrids at critical community facilities, which will be ready to connect to larger Community Microgrids ...

Community Microgrids

County officials voted early-stage and unanimous approval to release more than \$10 million in grant funding to support development of a long-planned microgrid that would provide

Community Microgrid Initiative

The Clean Coalition's Community Microgrids are designed to provide indefinite, renewables-driven backup power to critical facilities. Our Community Microgrid Initiative will provide a standard methodology that any ...

Community microgrids: A decision framework integrating social capital

By intertwining the hard metrics of microgrid operations with the soft metrics of the community's social fabric, our tool provides a more comprehensive, nuanced, and contextually relevant approach to ...

Understanding the community in community microgrids: A conceptual

This paper conceptualises existing literature on community microgrids, focusing on the representation and inclusion of community preferences, needs and behaviour across the development stages.

Webinar: Replicating hybrid microgrid

[solutions in Sofia's metro ...](#)

The webinar, which takes place on 15 May 2025 from 11:00 to 11:45 (CET), will offer insights into energy efficiency and grid resilience applied to a metro line in Bulgaria's capital, Sofia.

[Webinar recording: Replicating hybrid microgrid solutions in Sofia's](#)

The webinar provides information about the metro microgrid study conducted as part of the EU-funded TIGON project which has developed software and hardware components for the roll-out of hybrid ...

News & Events - TIGON

After a 5-year journey, the European energy initiative TIGON has delivered real-world validation of high-voltage, hybrid microgrids that can slash energy losses, improve resilience, and accelerate the shift to decentralised ...
