

Constant Temperature and Humidity Type Energy Storage Battery Cabinet for Charging Piles

Overview

Justrite's Lithium-Ion battery Charging Safety Cabinet is engineered to charge and store lithium batteries safely. The widespread use of lithium-ion batteries across various industries and applications—ranging from power tools to electric vehicles—has led to increasing concern about their storage and charging safety. Among the most effective solutions to mitigate fire risks and protect personnel and property is. The CellBlock EMS (Exhaust Monitoring System) is a cabinet add-on that enhances battery charging and safe storage. Designed for use in a climate controlled environment, it regulates temperature and provides active smoke monitoring with an alarm system. Securall understands the critical risks associated with modern energy storage. This state-of-the-art cabinet features multiple layers of advanced shielding, specifically designed to reduce the risks of battery fires and thermal runaway.
