

Customized home solar power generation system

Overview

We'll create a customized solar design, including a sunlight map, system visuals, and a list of components needed for installation. With a performance summary in hand, you'll have everything you need to confidently move forward with purchasing your ideal solar system. Considering purchasing solar equipment, but need help designing the perfect system?

Start by completing our simple design form, which helps us gather the details we need about your structure and energy goals. From there, you'll have an initial sales consultation with our NABCEP-certified design. To get started, simply click the button on this page, fill out the quick questionnaire with the necessary information and our AI-powered system will get to work designing and pricing a solar power system for you. Each solar panel kit comes with solar panels, grid-tie inverters and mounting hardware and is customized to your energy needs and home's unique specifications. Every home is unique, thus making every solar project unique.
