

# Desert Energy Storage solar Project Quote

## Overview

---

Situated on unincorporated land designated by the Federal Bureau of Land Management as a Solar Energy Zone, the Desert Quartzite Solar+Storage Project couples solar energy production with an energy storage solution, allowing electricity produced during peak solar. Situated on unincorporated land designated by the Federal Bureau of Land Management as a Solar Energy Zone, the Desert Quartzite Solar+Storage Project couples solar energy production with an energy storage solution, allowing electricity produced during peak solar. Desert Quartzite is a solar and storage project that became operational December 2024, jointly owned by Power Sustainable Energy Infrastructure Inc. This 375 MWdc / 300 MWac solar and 150 MWac/4-hour battery energy storage system (BESS) is located in Riverside County. SAN DIEGO (Jan. 31, 2025): EDF Renewables North America (EDFR) and Power Sustainable Energy Infrastructure Inc. (PSEI) today announced that their jointly owned Desert Quartzite Solar+Storage Project achieved operational status in December 2024. / 120MWac of renewable energy estimated to be created during peak construction. Located mostly on Bureau of Land Management land, Desert Quartzite is expected to generate enough electricity to meet the consumption needs of more than 163,000 average California homes.

## Desert Energy Storage solar Project Quote

### [EDF Desert Quartzite solar and storage secures funding](#)

EDF Renewables North America, a subsidiary of EDF Renewables, has announced the successful closure of financing for the Desert Quartzite solar plus storage project in California, US. ...

### [Desert Pine Solar and Storage in Texas . Lightsource bp US](#)

Desert Pine Solar and Storage represents a \$255 million private investment into renewable energy for Texas. Throughout its life, the project will contribute an estimated \$80 million to the local tax base, ...

### [EDF Renewables, Power Sustainable secure financing for Desert ...](#)

EDF Renewables North America, in partnership with Power Sustainable Energy Infrastructure Inc., has secured long-term financing for the Desert Quartzite Solar+Storage Project in ...

### [Large-scale solar with 600 MWh of storage now operational in California](#)

Desert Quartzite, a 300 MW / 600 MWh solar-plus-storage project located mostly on Federal lands administered by the Bureau of Land Management (BLM), in Riverside County, ...

## Desert Quartzite Solar+Storage Project

Desert Quartzite is a solar and storage project that became operational December 2024, jointly owned by Power Sustainable Energy Infrastructure Inc. and EDF Renewables. This 375 MWdc / 300 MWac ...

### [Partnership on California's Desert Quartzite Solar+Storage Project](#)

With a projected capacity of 300 megawatts (MW) of solar power and an additional 150 MW from a 4-hour battery energy storage system (BESS), the project will significantly contribute to ...

### [EDF Renewables puts Desert Quartzite solar-plus-storage project into](#)

EDF Renewables North America has begun operations on a 375MW/600MWh solar-plus-storage project in California, US. The company announced last week (31st January) that the Desert ...

### [EDF Renewables North America and](#)

## Power Sustainable Energy

"This project is a testament to the strong market fundamentals supporting renewables and battery storage in North America." The energy storage system not only helps to smooth ...

### **GRADE A BATTERY**

LiFePO4 battery will not burn when overcharged, over discharged, overcurrent or short circuit and can withstand high temperatures without decomposition.

## EDF Renewables secures funding for Desert Quartzite solar project

EDF Renewables North America, in collaboration with Power Sustainable Energy Infrastructure Inc. (PSEI), has successfully secured long-term financing for the Desert Quartzite ...
