

Distributed photovoltaic combiner box maintenance

Overview

Check your solar combiner box every six months. Wear safety gear to stop accidents from happening. This simplifies the connection to the inverter, which converts DC power to alternating current (AC) for use in homes and businesses. Cleaning out dust and looking at surge protection devices helps your system work well and stay. ity), equipment aging, and poor installation practices. For small to medium projects, this represents a significant financial impact that extends far beyond the direct monetary loss.
