

Dodoma electric vehicle costs

Overview

According to Kenyan vehicle financing firm Mogo, drivers typically save 160 Kenyan Shillings (\$1. 20) a day when using an electric bike over an 80 kilometre range, compared to a 150cc petrol model. Based on an estimated 100 round trips annually between Dar es Salaam and Dodoma, this shift could save over 5 tonnes of CO2 emissions per year. Here is a summary of how the analysis was conducted:

1. How. Electric cars are gaining traction in Tanzania in 2025, offering lower fuel costs, reduced maintenance, and a cleaner alternative to traditional vehicles. Africa simplifying the buying process, it's easier than ever to make the.
