

Drone Station Folding Container DC Price Reduction

Overview

The Hextronics Atlas 300 Battery-Swapping Drone Docking Station is a powerhouse solution engineered for the DJI Matrice 300. This advanced station is tailored for critical missions, including Drone First Responder (DFR) programs, inspections, surveillance, and perimeter security. Fast forward to 2022, DJI entered the world of drone docking stations with the DJI Dock, providing a. Each DJI Dock houses a Matrice 300 where it lands, recharges, takes off, and executes missions programmed in DJI FlightHub 2. With FlightHub 2, unlock full DJI Dock functionality from the cloud. Precision Landing Technology: Radial landing error recovery within 17 cm for enhanced safety and reliability. Robust Operating Range: Operates in extreme temperatures from. An operator simply needs to set a target destination on the AtlasSTATION interface to have the autonomous system complete the mission.
