

Electric vehicle safety kuala lumpur

Overview

The Safety Guide for Road Users and Public Concerning Electrified Vehicle Incident Management (MyEVIM) provides a comprehensive framework to ensure the safety and preparedness of road users and the general public in incidents involving Electrified Vehicle (EV). The Malaysian Fire and Rescue Department (JBPM) recently announced during a Building Fire Safety Course that the installation of new Electric Vehicle Charging Bays (EVCB) in Malaysia must adhere to the guidelines set by JBPM to ensure optimal fire safety. Acting KL department director Rozihan Anwar Mamat said that this is crucial to ensure safety and reduce the risk of fires. Datuk Hairil Yahri Yaacob, secretary general of the Ministry of Investment, Trade and Industry. Our state-of-the-art facility and expert-led programs are designed to empower the next generation of EV professionals, equipping you with the skills and knowledge to excel in the rapidly evolving automotive industry.
