

Electric vehicles evs oman

Overview

This blog explores how electric vehicles are gaining traction in Oman, the initiatives driving this change, and what it means for the country's future. Oman, traditionally known for its oil and gas industry, is diversifying its economy and energy sources to align with global sustainability trends. By 2030, it is projected that around 26% of new global car sales will be EVs, with. OMAN ELECTRIC VEHICLE SHOW (OEVS) is a pioneering event set to take place fully charged up in 2027. There were only 550 EVs in 2023 which rose to 1,500 in 2024, said Eng. Khamis bin Mohammed Al Shamakhi, Undersecretary of the Ministry of Transport, Communications.
