

# Energy Storage Box COSCO SHIPPING

## Overview

---

This energy storage container with robust environmental adaptability and exceptional scalability can be widely used in power storage sites in wind power, photovoltaic and other industries of the PRC and overseas, meeting the demanding requirements of various scenarios with. This energy storage container with robust environmental adaptability and exceptional scalability can be widely used in power storage sites in wind power, photovoltaic and other industries of the PRC and overseas, meeting the demanding requirements of various scenarios with. China COSCO SHIPPING Corporation Limited (COSCO SHIPPING) has recently completed a major export project involving large-scale energy storage equipment. Through innovative logistics models and upgraded end-to-end services, the company is helping Chinese new energy products establish efficient. A general cargo vessel has successfully departed from Qinzhou Port, in the Beibu Gulf, Guangxi Zhuang Autonomous Region, carrying the first batch of 120 BYD energy storage containers, each weighing approximately 45 tons. 5GWh project — currently the world's largest grid-side energy. Chinese state-owned company COSCO Shipping has launched what it calls the “world's largest” river-to-sea electric container ship. The Green Water 01 is a 10,000-ton+ fully electric vessel that sets a new benchmark in sustainability in the marine logistics industry. These 40-foot steel boxes have evolved from simple battery holders to sophisticated "energy Swiss Army knives," capable of storing. The world's biggest fully electric container ship is the Greenwater 01, designed and constructed by China Ocean Shipping Group (COSCO).

## Energy Storage Box COSCO SHIPPING

### Company News

On July 31, the first fully integrated energy storage container of CATL from DFIC Qidong of Shanghai Universal, a subsidiary of COSCO SHIPPING Development, was successfully shipped.
