

# Energy company uses 120-foot collapsible shipping container from Santo Domingo

## Overview

---

Transcontinental Capital, an energy producer, and a subsidiary of Seaboard Corporation has awarded a contract for the barge-mounted floating power plant in the Dominican Republic, jointly awarded to Siemens and the ST Engineering marine unit in Singapore. COLLAPSECON is the next evolution of shipping containers – a fully automated collapsible container that will improve operational efficiencies, deliver economic savings and reduce environmental impact across the supply chain, all without requiring a fundamental change to the industry or global. Nicholas from CEC Systems discusses how collapsible shipping containers can be used throughout the supply chain. We discuss the logistics issues throughout the supply chain that will be solved through reliable collapsible containers.

Imbalanced. As Santo Domingo positions itself as a Caribbean leader in green technology, new energy ship energy storage solutions are making waves in maritime transportation. The port city's ambitious plan to reduce shipping emissions by 40% before 2030 has created booming demand for intelli As Santo Domingo. A collapsible, or mobile, solar panel container is a self-contained, transportable solar power system built within a standard shipping container frame. It contains high-efficiency photovoltaic (PV) panels, inverters, and often batteries, all housed inside a weather-resistant steel enclosure. When. The Caribbean Islands are serviced by many diesel powered ferries operating between Trinidad & Tobago, St, Lucia, Puerto Rico, Dominican Republic, Jamaica, Cuba and the Cayman Islands, typically supplied by and to neighboring mainland's.
