

First solar tunis city

Overview

So it comes as no surprise that Tunisia's first solar power plant would be located in the desert - of Tozeur. The city, which grew out of an oasis, is in the southern part of the country on the northern edge of the Sahara. A low white wall surrounds the power plant outside the city. Located on the Tunis Lake, the floating solar power plant developed by Qair was inaugurated on Saturday 25 June in the presence of the Minister of Industry, Mines and Energy Neila Noura Gongi, the Minister of Economy Samir Saied, the Head of the Regional Economic Service of the French Ambassador. The country's first solar power plant in Tozeur, at the edge of the Sahara, is making an important contribution to this energy transition. Heat is normal, rain is scarce:.

Tunis, Tunisia, September 26, 2023 —Tunisia will soon be able to lower the cost of power generation, bringing clean, renewable energy to its 12 million citizens, reduce greenhouse gas emissions by almost 100,000 tons annually, and accelerate its green transition. This will be done through a. The first floating solar station in Tunisia has started to operate on a lake next to a Tunis industrial park. An executive of Qair, Omar Bey, said, “When. Ms. Neila NOUIRA GONGI, Minister of Industry, Mines and Energy, Ms.
