

Freedom won battery review

Overview

Freedom Won now want to repair the battery but I bought a new battery and do not want a repaired battery that was faulty from day 1! I have also found many people have had problems with this same model battery, seems quality control is very poor at the factory of these eTower. Freedom Won now want to repair the battery but I bought a new battery and do not want a repaired battery that was faulty from day 1! I have also found many people have had problems with this same model battery, seems quality control is very poor at the factory of these eTower. I have a Sunsynk and Dyness B3 (2 of them) running perfectly for the longest time. Recently we have been having infrastructure issues which have left us without power for extended periods. 6kw each) only give me around 7-8 hours of run time. The B3's are no longer available. After receiving positive reports from commercial users of the Freedom Won and also my contacts from Victron in Holland, I went ahead and purchased the 20/16 at 24v unit. I bought a new Freedom Won Etower Battery and it was installed 1 month ago. The person assisting me told me that I overcharged the battery which is incorrect. One company is recommending Freedom Won batteries. (I am in Australia) The club I belong to is looking at solar systems. They also offer a 5 year guarantee. Any experience, positive or negative would be appreciated.
