

French new energy battery storage box

Overview

TAGENERGY, a global leader in low-carbon energy solutions, launches construction of France's largest battery energy storage platform (France, Marne). The 240MW/480MWh project will be five times larger than the country's current biggest operational battery. Financing for the project has been secured through a. We develop and operate modular energy storage systems using long-life Lithium Iron Phosphate (LiFePO₄) batteries, supported by a proprietary Battery Management System (BMS). Strengthened by AI, our system dynamically optimizes performance, extends battery life, and safeguards uptime in real time. TESLA, a Neogy® is the first French battery manufacturer to obtain ECE R100 approval for batteries used in M1 and N1 category EVs (including fire and crush tests).
