

Gabon outdoor telecom enclosure long-term type

Overview

Weather-resistant metal enclosure with integrated cooling, providing secure protection for telecommunications equipment in outdoor environments. It also protects delicate parts from weather and damage. Bad choices can cause equipment to break, cost money to fix, and stop work often. These outdoor enclosures are made from rugged materials such as polycarbonate or stainless steel that safeguard them from environmental hazards. In this guide to outdoor telecommunications enclosures, we'll review the many types of enclosures on the market. We'll look at factors that determine. Westell is a collaborative partner in OSP deployment optimization providing customized, fully integrated, vendor neutral outdoor network equipment enclosures.
