

# Germany s hybrid battery storage

## Overview

---

Statkraft, thought to be Europe's largest producer of renewable energy, has commissioned Germany's largest solar battery storage hybrid power plant under the country's Renewable Energy Sources Act. The €45 million plant was built on 41 hectares at a former gravel pit near the city of Zerbst/Anhalt. Construction was completed on schedule in 12 months, operational since October 2025. Germany's battery storage market has moved from pilot scale to a core flexibility asset for the Energiewende. Utility-scale projects are.

## Germany's hybrid battery storage

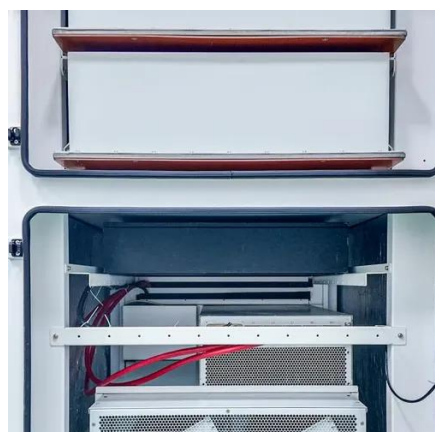

### [Efficient, sustainable and cost-effective hybrid energy storage system](#)

The aim of the project was to develop an extremely powerful, sustainable and cost-effective hybrid energy storage system. The project has been realized by Landshut University of ...

### INTERVIEW

Germany's corporate power purchase agreement (PPA) market is shifting rapidly as falling prices and rising negative power hours force developers and buyers to rethink their strategies, ...

### [Fluence to provide advanced energy storage systems for Statkraft's](#)

This will be the sixth time that Fluence provides battery technology to Statkraft, Europe's largest renewable energy producer. In addition to the latest project in Germany, the company is ...

### [Statkraft commissions Germany's largest solar battery storage hybrid](#)

Zerbst, Germany / Oslo, Norway, 12 November 2025 - Statkraft, Europe's largest producer of renewable energy, today commissioned Germany's largest solar battery storage hybrid ...

### [Battery storage in Germany: markets, policy and what to watch in 2025](#)

Germany's battery storage is surging, from home PV systems to utility-scale assets, reshaping grids, revenues and policy as costs fall and volatility rises now. Germany's battery storage ...

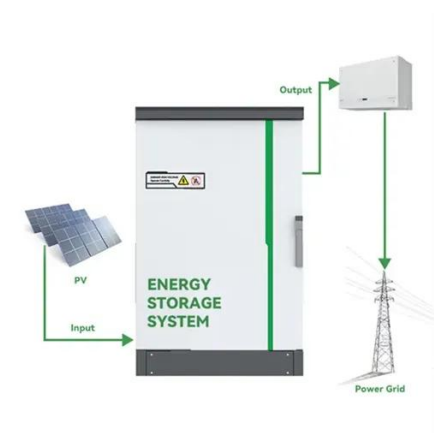

### Storing renewable energy in Germany

We deliver and service comprehensive, powerful and reliable systems, based on both gas and diesel engines, as well as electrified hybrid systems. These clean and technologically ...

### [Statkraft Launches Germany's Largest Solar Battery Hybrid Plant](#)

Statkraft has commissioned Germany's largest solar battery storage hybrid power plant in Zerbst under the Renewable Energy Sources Act (EEG). The project, developed in-house, marks ...

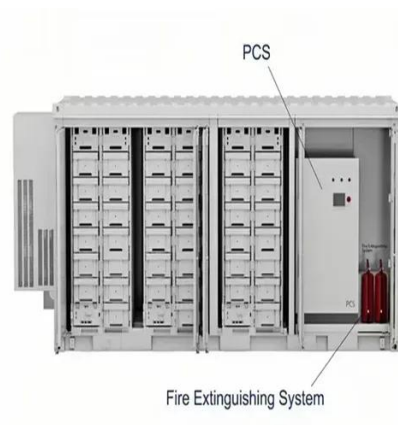

### Innovation Tender: Germany picks

## 587MW of solar ...

The German Federal Network Agency (Bundesnetzagentur) has awarded 587MW of solar-plus-storage in its latest Innovation Tender.

## [Germany's largest solar battery storage hybrid plant commissioned](#)

Statkraft, thought to be Europe's largest producer of renewable energy, has commissioned Germany's largest solar battery storage hybrid power plant under the country's ...

## [Battery Storage: Accelerating Germany's Transition to Renewable](#)

Impact: In addition to financial returns, large battery projects also generate immaterial returns, as these storage systems accelerate the energy transition and contribute to reducing CO2 emissions.
