

# Germany solid-state batteries

## Overview

---

A team of scientists working for Bonn-based company High Performance Battery (HPB), led by Prof. Günther Hambitzer, has achieved a decisive breakthrough in battery and storage technology with the development of the world's first solid-state battery with outstanding properties to. Researchers in Germany have recently unveiled a new lithium-sulfur (Li-S) solid-state EV battery that could pave the way for lighter, safer and far more energy-efficient storage systems. Compared to conventional lithium-ion batteries with liquid or gel-like organic electrolytes, they offer numerous advantages. These include higher energy density, improved stability and, above all. Since German automakers are somewhat infamous for unnecessarily complicated car technology, solid-state batteries are a natural fit. Driven by technological advancements, increasing demand for safer and more efficient power sources, and stringent regulatory standards, this.

## Germany solid-state batteries

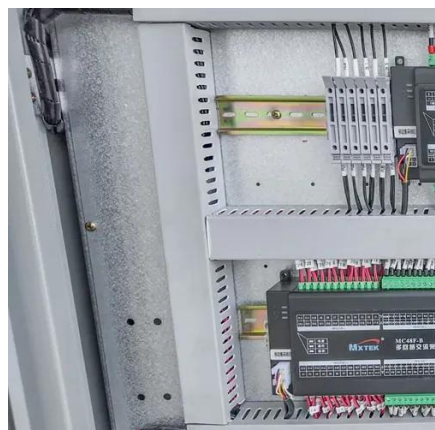

### [How The Germans Are Faring With Solid-State Battery Development](#)

Solid-state fever has spread to Europe. Since German automakers are somewhat infamous for unnecessarily complicated car technology, solid-state batteries are a natural fit.

### [Top 100 Solid-State Battery Companies in Germany \(2026\) , ensun](#)

When exploring the solid-state battery industry in Germany, several key considerations come into play. The country is at the forefront of battery technology innovation, driven by its commitment to ...

### **Solid-state batteries made in Germany**

Solid-state batteries are considered the holy grail in the battery world, with more capacity than current lithium-ion batteries. Will a German start-up be the first to mass produce them?

### **Solid-State Battery and Energy Storage in Germany**

The future of solid-state batteries in Germany appears promising, driven by continued innovation and growth in the energy storage sector. As a key player in the European energy ...

### [Germany Solid State Chip Battery Market Demand Drivers and Future](#)

The Germany solid-state chip battery market is emerging as a critical segment within the broader advanced energy storage and microelectronics landscape. Driven by technological ...

### [German start-up develops the world's first solid-state battery ready](#)

A team of scientists working for Bonn-based company High Performance Battery (HPB), led by Prof. Dr. Günther Hambitzer, has achieved a decisive breakthrough in battery and storage tec

### [Germany grants EUR46m for sodium-chloride solid-state gigafactory](#)

Australia-based battery technology firm Altech Batteries has received a binding conditional funding approval for a 120MWh sodium-chloride solid-state battery manufacturing facility in Germany.

### [How The Germans Are Faring With Solid-](#)

## [State Battery ...](#)

Solid-state fever has spread to Europe. Since German ...

## **theion GmbH - batteries on lithium-sulfur basis**

In the voids of our Sulfur wafer operates a proprietary solid-state polymer electrolyte. We use our proprietary lithium metal host foil as anode. Our battery technology is compatible with bipolar cell ...

## [Solid-state batteries: Next-generation, high-energy storage systems](#)

At Fraunhofer ZESS, the entire value chain of solid-state batteries is investigated, from materials through to systems, with associated production and recycling management.

## [German team creates new solid-state EV battery with 600 Wh/kg ...](#)

Researchers in Germany have recently unveiled a new lithium-sulfur (Li-S) solid-state EV battery that could pave the way for lighter, safer and far more energy-efficient storage systems.
