

Ghana power outages

Overview

The Electricity Company of Ghana (ECG) has announced that parts of the country are experiencing power outages following a heavy rainstorm that hit on Tuesday, October 7, 2025. © 2026 Electricity Company of Ghana Ltd. After power outages reported in recent weeks in several parts of Ghana, the government has sought to reassure the public. Energy Minister John Jinapor said the country is not undergoing scheduled load shedding. “ I wish to state unequivocally that there has been no load shedding for over ten. There you will find detailed instructions and exact times of outages in Accra. This allows you to prepare in advance and minimize the inconvenience of being without power. As you browse the schedule. Ghanaians may have to brace themselves for ongoing power outages, locally known as “dumsor,” through the end of the year unless urgent action is taken to address deep-rooted issues in the country's energy sector.

Ghana power outages

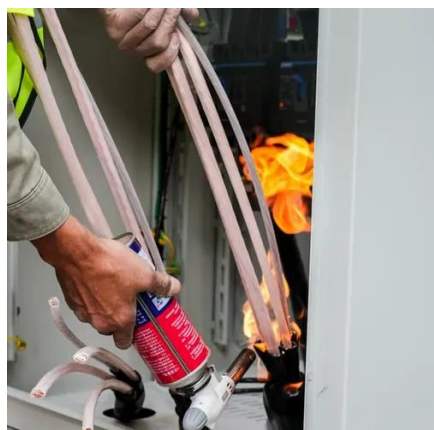

Outdoor Cabinet BESS
50 kWh/500 kWh Battery Storage System
Industrial and Commercial Energy Storage

- All In One**
Integrating battery packs
- High-capacity**
50-500kWh
