

Haiti solar incentives

Overview

On Tuesday, March 18, 2025, as part of an initiative to strengthen recovery and energy security in Haiti, the International Finance Corporation (IFC), a member of the World Bank Group, and IDB Invest, a multilateral private sector development bank of the Inter-American Development. On Tuesday, March 18, 2025, as part of an initiative to strengthen recovery and energy security in Haiti, the International Finance Corporation (IFC), a member of the World Bank Group, and IDB Invest, a multilateral private sector development bank of the Inter-American Development. The International Finance Corporation (IFC) and IDB Invest have announced a groundbreaking \$13.5 million investment in Haiti's growing solar industry. This strategic funding is designed to significantly expand access to clean, renewable energy across the country, helping address Haiti's. Fortunately, the government and private sectors are now offering various incentives and support for solar adoption. This guide explains what you need to know about these incentives, the benefits of going solar, and how to get started—today. Solar energy offers a promising path toward reliable, affordable, and environmentally friendly power.
