

How is Qixin photovoltaic panel

Overview

The Qixin Solar SL175CE-36M photovoltaic panel offers a power of 175W. The panel shows resilience with 5.02A short circuit current and 44. Detailed profile including pictures, certification details and manufacturer PDF . QXPV (Ningbo Qixin Solar Electrical Appliance Co., Ltd) is a high-tech enterprise engaged in the research, development and application of solar energy with a combination of various solar energy technology and professional staff. Since its foundation in 2005, QXPV has devoted itself to the. Since its foundation in 2005, QXPV has devoted itself to the development, research and promotion of solar modules, solar cells and solar systems, with the products marketing across China, Europe, America, and other countries, and has formed a widely covered customer base and marketing network all. Looking for the best Ningbo Qixin Solar Electrical Appliance Co. was established in 2005, with registered capital of 176 million yuan and total assets of 973 million yuan, located in the Binhai Industrial Park of Xiangshan County, covering a floor area of 85000m², which is a group listed company integrating R&D.
