

How much does the Israeli energy storage power supply cost

Overview

Israel's storage tender sets prices between \$0.0085 per kW, with kWh figures therefore at \$49.5 GW of high-voltage battery storage capacity across three regions, marking a significant milestone in the country's energy transition. Technological advancements are dramatically improving industrial energy storage performance while reducing costs. The prices of gasoline rose again in 2024 to US\$2/l. It awarded 12 licenses to six companies in 2023 as part of the 4th Offshore Bid Round.
