

Huawei Iraq Hybrid Energy Storage Project

Overview

Huawei introduced its latest solutions for Iraq, including the Smart String Energy Storage System (215 kWh) and the C&I SUN2000-150KTL inverter. The storage system provides higher safety, longer lifecycle, and intelligent management. Over 1,800 network sites in Kuwait, Saudi Arabia, Iraq, and Sudan have been modernized cutting carbon emissions by 150,000 tons annually. Huawei hybrid power solutions integrate genset, PV, energy storage and grid data, optimizing performance, boosting sustainability for telecom and industrial. Huawei Digital Power, a division of Huawei, successfully hosted its FusionSolar Day Iraq 2025. The event brought together government leaders, industry experts, and partners to discuss Iraq's renewable energy and sustainable development plans. For Iraq's commercial and industrial (C&I) sectors, it provides stable Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K. Iraq's Minister of Electricity, Eng. Ziyad Ali Fadel, chaired a technical meeting with Chinese company Huawei to discuss the proposal for a fast-installation solar power plant with a capacity of 100 MW in Karbala.
