

Huawei s cheap energy storage vehicle is affordable

Overview

The car is expected to be launched in the fourth quarter of this year, with a price range of CNY150,000 to CNY250,000 (USD20,678 to USD34,464), making it the most affordable HIMA model to date. The pair is already talking about the second Shangjie model, the sources added. Launched on August 25 at the HarmonyOS Smart Mobility Autumn New Product Launch Event, Shangjie H5 (or Saic H5), the mid-size SUV, a collaborative effort between Huawei and SAIC Group, will have an official market launch scheduled for September 23. HarmonyOS Intelligent Mobility Alliance (HIMA). (Yicai) Feb. 17 -- Chinese carmaker SAIC Motor and Huawei Technologies are teaming up to develop a new electric vehicle brand called Shangjie, which will be the fifth and most affordable EV marque to use the tech giant's Harmony operating system, Yicai learned from multiple sources. A key project is a 5,000 MWh storage facility costing Rs 12,000 crore, aiming to power Kolkata with 50% renewable energy. The group will. Huawei is the latest in a growing list of automakers and tech companies that are exploring the possible benefits of fitting an EV with solid-state batteries, with the likes of BMW, Mercedes-Benz, VW, BYD and Stellantis all publicly touting the tech. Picture this: an electric car that can travel 3,000 kilometres on a single charge and fully recharge in just five minutes. While it might sound like a futuristic dream, Huawei's.
