

# Indonesian solar power tiles

## Overview

---

This article explores solar power in Indonesia, highlighting key locations, current progress, and its multifaceted impacts on society, the economy, and the environment. The Solar Energy Potential in Indonesia straddles the equator, making it an ideal. As the longest continuously operating renewable energy solutions provider in Indonesia, SPI has a proven track record of delivering successful projects in even the most challenging, remote, and regional locations across the country. How can we help you with your project?

We are first and foremost. Inecosolar is a subsidiary of Yinson Renewables, the renewables business unit of Yinson Holdings Berhad, a global energy infrastructure and technology company headquartered in Malaysia. Throughout the year, almost all regions in Indonesia receive more than 6 hours of sunlight/day or 2,400 hours/year. Especially so as each installer may offer you different packages, services and energy solutions.
