

Industrial and commercial off-grid energy storage system solution

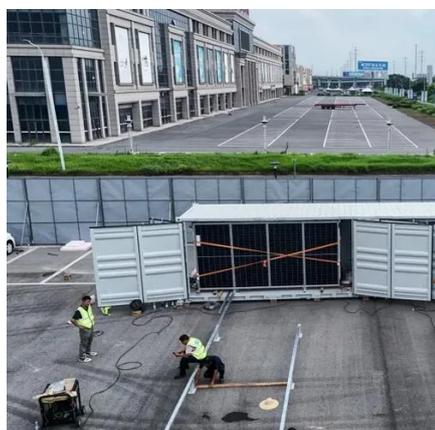

Overview

Boost your business efficiency with Growatt's commercial and industrial storage systems. Our advanced energy storage solutions help reduce operational costs, improve energy security, and support sustainable practices for large-scale enterprises. The energy storage system as a backup power will supply power to the load when the power grid fails. Globally certified and built for safety, our AlphaESS C&I solutions offer from 30kW to 30+MW. We have delivered hundreds of projects covering most of the commercial applications such as demand charge management, PV self-consumption and back-up power, fuel saving solutions, micro-grid and off-grid options. The Mazongshan PV + Energy Storage. In areas with limited grid access, off-grid energy storage and solutions designed for weak-grid environments are increasingly relied upon by real-world projects. Our systems are widely applied in rural agriculture, manufacturing zones, commercial and logistics centers, residential communities, Schools, hospitals, government and municipal.
