

Instructions for use of 1000V power cabinets in remote areas

Overview

Download the comprehensive Liebert RDC User Manual for detailed instructions on installation, operation, and maintenance of the RDC power distribution cabinet. This document covers key features, specifications, and FAQs. Eaton's MRR1000 remote racking device provides a means of remotely inserting or removing any drawout circuit breaker in the MagnumE family of air circuit breakers (ACBs), to help mitigate arc flash exposure. The MRR1000 permits the operator to remotely open and close a breaker from up to 25 feet. While every precaution has been taken to ensure the accuracy and completeness of this document, Vertiv assumes no responsibility and disclaims all liability for damages resulting from use of this information or for any errors or omissions. Refer to other local practices or building codes as. **WARNING** The shipping bands may be under tension. use appropriate eye, face, and hand protection to safeguard against injury from band backlash.
