

Is the 66 degree lithium battery pack good

Overview

They're a type of rechargeable batteries that use a gel-like polymer electrolyte instead of the liquid form found in conventional Li-ion power tool batteries. However, I do consider buying Garmin 66i or 66st. On the other hand, most likely, I will not be an avid user of inReach features (paying for something not being used), hence, the 66st makes more.
