

Kaisheng New Energy Photovoltaic Panel

Overview

The company produces lightweight, flexible, and powerful copper indium gallium selenium thin film solar cell modules, using flexible cell structures and efficient thin film technology to manufacture innovative solar cells. Established on April 3, 2020, Xuancheng Kaisheng New Energy Technology Co. Kaisheng New Energy said that its majority-owned subsidiary, Zigong New Energy, will invest approximately CNY 1.40 billion (\$193 million) to build a 2,000-ton-per-day photovoltaic. Midsummer has contracted Kaisheng to manufacture its BOLD S solar modules for the European market. Detailed profile including pictures, certification details and manufacturer PDF .
