

Kenya data center energy storage

Overview

Nairobi, Tuesday, July 29, 2025: The Kenya Electricity Generating Company PLC (KenGen), has commissioned a new Battery Energy Storage System (BESS) to supply uninterrupted renewable power to its modular data center, marking a new frontier in Kenya's long-term green energy. Nairobi, Tuesday, July 29, 2025: The Kenya Electricity Generating Company PLC (KenGen), has commissioned a new Battery Energy Storage System (BESS) to supply uninterrupted renewable power to its modular data center, marking a new frontier in Kenya's long-term green energy. Nairobi, Tuesday, July 29, 2025: The Kenya Electricity Generating Company PLC (KenGen), has commissioned a new Battery Energy Storage System (BESS) to supply uninterrupted renewable power to its modular data center, marking a new frontier in Kenya's long-term green energy strategy. The newly. Kenya's largest electricity company, Kenya Electricity Generating Company (KenGen), has commissioned a Battery Energy Storage System (BESS) to power its modular data center at its headquarters in Nairobi. First reported by the Citizen, the system, which has a capacity of 1. The new system marks a significant step in Kenya's transition to a low-carbon future and reinforces KenGen's commitment to reliable. The newly installed 1. 16 megawatt-hour (MWh) BESS will supply uninterrupted power to KenGen's 52-kilowatt Modular Data Centre (MDC), a facility designed to host and support the utility's growing digital infrastructure.
