

Kosovo Solar Air Conditioning Recommendations

Overview

The report provides an in-depth analysis on key product categories including air conditioners. The report includes the monitoring of recent trend patterns and demand drivers, plus substantiated volume forecasts for the next 5 years. As a potential European Union (EU) candidate and an Energy Community (EnCT) Contracting Party, Kosovo is embracing the climate and energy priorities of the union, aligning itself with the ultimate climate-neutral ambition by 2050. On the path to climate neutrality, Kosovo has specific milestones. The “Solar 4 Kosovo II” project is one of the largest energy projects in Kosovo. Kosovo* is launching the Western Balkans' largest solar thermal district heating project, Solar4Kosovo. The project is simple. Its solar panels capture sunlight and convert it into heat during the day. This groundbreaking solar auction ensured a transparent and level playing field for qualifying bidders and is a milestone in Kosovo's energy sector. To contribute to an efficient, reliable and climate-friendly heating supply for households, public institutions and businesses in Prishtina. Prishtina Energy 12/2022 - 12/2028 (incl. 64%) Ndermarrja Publike Termokos Sh.
