

# Longi 450 photovoltaic panel a grade

## Overview

---

With a power output of 450W, it can generate up to 870kWh of electricity per year, depending on location and installation conditions. Longi 450W Mono Solar Panel (A grade) offers high efficiency, durability, and optimal power output for residential and commercial. LONGi supplies its reliable, high-performance solar modules to 6 continents and 85 countries and regions to power the world toward a low carbon future. HIBC (Hybrid Interdigitated Back-Contact) refers to a high-low temperature composite passivated back contact technology. Part of LONGi's highly regarded Hi-MO series, this panel offers advanced mono crystalline technology with PERC (Passivated Emitter and Rear Cell) features that enhance energy capture and boost efficiency. The 450W. Strong light-transmitting tempered glass can effectively resist rain, snow and hail. Effectively resist natural erosion, thickened aluminum alloy frame, anti-oxidation, anti-corrosion, long service life. Shipping fee and delivery date to be negotiated. As an A-grade product, it ensures superior performance and durability.
