

Longi photovoltaic panel p-level model

Overview

Longi solar panels 500W are P-type mono PERC, half-cell modules built to deliver more kWh with fewer panels—great for C&I rooftops and ground-mounts. Multi-busbar cells and the half-cut layout reduce resistance and hot-spot risk, keeping production stable in real-world shade and. LONGi supplies its reliable, high-performance solar modules to 6 continents and 85 countries and regions to power the world toward a low carbon future. HIBC (Hybrid Interdigitated Back-Contact) refers to a high-low temperature composite passivated back contact technology. The 500W. By using a P-type HPBC cell design, LONGi has matched the efficiency levels of top-tier brands like SunPower, renowned for producing some of the most efficient solar panels in the world. It provides up to 425 W power output with 21. For residential installations, Longi provides sleek and aesthetically pleasing solar panels that can seamlessly blend into the roofline of any.

Longi photovoltaic panel p-level model

LONGi Solar panels review 2026

LONGi 540 W solar panels are a good choice for building a powerful home system or a commercial solar installation. The panel provides 540 W output with 21.1% efficiency.
