

# Military microgrid construction project bidding

## Overview

---

This project will be tasked with Construct an installation-wide black-start capable microgrid incorporating 10MW of new firm natural gas (NG) generation and medium voltage distribution switchgear connected at the Eulaton substation that will be owned and operated by Anniston Army. This project will be tasked with Construct an installation-wide black-start capable microgrid incorporating 10MW of new firm natural gas (NG) generation and medium voltage distribution switchgear connected at the Eulaton substation that will be owned and operated by Anniston Army. generation system, ground-mounted photovoltaic (PV) solar array, and a Battery Energy Storage System (BESS). The microgrid system will include a master microgrid controller and automatic smart switches controlling the generation resources within the AFRC. Microgrid will be installed on a closed. The Government is planning to issue a Design-Bid-Build Construction project to provide energy resiliency by providing an on-site, automated energy control / generation storage management system: Construct a microgrid system that will have full islanding capability. The contract was awarded. As noted in the synopsis Savannah District is in the process of transitioning to a new contract writing system in which this requirement was identified to be issued via that system. Type of Contract and NAICS: This Acquisition is solicited using FAR Part 14, Sealed Bid Procedures for one (1). Public Notice is hereby given that the Delaware Army National Guard (DEARNG) is soliciting letters of DEARNG CONTRACT NO. 2023-18; NGB PN 100110/94951 - BIDEN MICROGRID SYSTEM, DESIGN- BID-BUILD A&E SERVICES. Army Corps of Engineers prepare to be sling-loaded from helicopters to inspect tops of high-voltage transmission towers and anchor lines that hold them in place after roughly 80 percent of grid was affected by storms, Aguadilla Pueblo, Puerto Rico, February 16, 2018 (U).

## Military microgrid construction project bidding

---

### USACE Contract Award: Sep 24, 2025

City Light & Power LLC of Greenwood Village, Colorado, has been awarded a firm-fixed-price contract to construct power generation and microgrid infrastructure at a major military installation.

### SAM.gov

DESCRIPTION: The Government is planning to issue a Design-Bid-Build Construction project to provide energy resiliency by providing an on-site, automated energy control / generation storage ...

### 1701-25-R-IFBD-00014

The Mississippi Military Department is seeking sealed bids for a critical infrastructure project at Camp Shelby Joint Forces Training Center (CSJFTC), specifically a 10MW Generation ...

### [Joint Base Lewis-McChord Gray Army Airfield Power Generation and](#)

The Department of Defense, through the U.S. Army Corps of Engineers Louisville District, is seeking proposals for the construction of a power generation and microgrid system at Joint Base ...

### [Proj No.: 95170, Construct a 10MW Generation Plant, with Microgrid ...](#)

The U.S. Army Corps of Engineers, Savannah District, is soliciting bids for the construction of a 10MW Generation Plant with Microgrid Controls at Fort Stewart, Georgia.

### [Microgrids for the 21st Century: The Case for a Defense Energy](#)

This article defines the concept of a Defense Energy Architecture that may guide the construction of microgrid systems to supply desired energy production while supporting energy ...

### [Proj No.: 95170, Construct a 10MW Generation Plant, with Microgrid ...](#)

This project will allow approximately 10MW of existing PV to be connected to the microgrid currently without causing a challenge with frequency fluctuations or voltage drops in the ...

### [Energy Resilience and Conservation](#)

## Investment Program ...

This project includes photovoltaic power generation, a battery energy storage system, natural gas emergency generation, a microgrid control system, and all necessary distribution and switchgear ...

## Design-Build (D/B) Construction Project of a Microgrid at Fort ...

Bids were solicited via the internet with 14 received. Work will be performed in Fort Campbell, Kentucky, with an estimated completion date of Aug. 29, 2024. Fiscal 2019 military construction, Army funds in ...

## Public Notice is hereby given that the Delaware Army National ...

The Biden Microgrid System project will utilize the Design/Bid/Build method and include the following: Construct a microgrid system for the DEARNG powered by two (2) natural gas fired generators, ...
