

Mingfu photovoltaic support equipment

Overview

The solar bracket installation pillar channel rolling forming machine (updated version), also known as the seismic photovoltaic (PV) frame rolling forming machine, is used for installing, supporting, supporting, and connecting lightweight structural loads in building construction. Mingfu Metal has many years of experience in the design, development and production of metal products. It is suitable. The Photovoltaic Support Ground Pile is a key item within our extensive Steel Sheet & Plate selection. tw/ ●JIN LIAN CHENG RESOURCES AND TECHNOLOGY CO.
