

Moldova solar energy storage policy price

Overview

As Moldova continues its energy market reform, authorities anticipate a future transition from fixed tariffs to a contract for difference (CfD) based model once the wider regulatory framework is ready. Storage is a compulsory element of each bid. The Moldovan Agency for Energy Regulation (ANRE) has set fixed tariffs and a ceiling price for electricity generation from renewable energy sources, including for the upcoming tender aimed at constructing wind farms with a total capacity of 170 megawatts (MW) and battery storage with a capacity of. The regulation for the first tenders for the installation of wind and photovoltaic power plants with a capacity of 165 MW was approved today by the Government, another step towards achieving the objectives of decarbonization of the economy. Bid submission is expected in March 2026, with contract awards planned for June 2026. 5 MW)—more than double the. Moldova's Ministry of Energy says 60 MW of solar awarded in the country's first renewables auction is now online, with developers receiving 15-year fixed-price guarantees at MDL 1. Moldova has introduced an electronic guarantees of origin system to certify renewable energy. Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving solar storage container performance while reducing costs.

Moldova solar energy storage policy price

Moldova sets ceiling price for renewable energy

Fixed price for 15 years - for solar installations above 1 MW and wind installations above 4 MW, with capacities allocated through auctions.
