

# Multiple PV Energy Storage Procurement in Western Europe

## Overview

---

With over 21 GW set for auction in 2025, Europe is ramping up investments in offshore wind, solar PV, agrivoltaics, and energy storage. France, Germany, Portugal, and the United Kingdom lead the push, while Denmark rethinks its strategy after scrapping a major 3 GW tender. The Europe solar EPC market size was valued at USD 90.9 billion in 2024 and is anticipated to grow at a CAGR of 6. Shifting focus to renewable energy procurement targets as part of their sustainability strategies along with enhancement of the service offerings by the EPC. A panel discussion from Day One of the Energy Storage Summit 2025 in London today, titled: 'What is the Right Way to Go About Procuring Long-Term Energy Storage in European Markets?'

' Image: Solar Media. Industry experts discussed the varying approaches in Europe to procuring energy storage via. This document is a publication by the Joint Research Centre (JRC), the European Commission's science and knowledge service. It aims to provide evidence-based scientific support to the European policymaking process. At EcoSync, we've observed a major shift: storage is evolving from a supporting tool to a revenue-generating asset, reshaping how.

## Multiple PV Energy Storage Procurement in Western Europe

### [Procuring long-term energy storage in European markets](#)
