

Nanya household lithium battery energy storage power supply

Overview

This product is designed as the movable container, with its own energy storage system, compatible with photovoltaic and utility power, widely applicable to temporary power use, island application, emergency power supply, power preservation and backup. The answer lies. The global BESS market is projected to grow at 23.5% CAGR through 2030, driven by renewable energy adoption and grid modernization needs. Unlike conventional UPS systems, the Nanya BESS solution employs modular architecture that allows: "Modern energy challenges require adaptive solutions. Battery. Explore everything you need to know about lithium-ion batteries for home use, including their benefits, installation, maintenance, and cost considerations. With the rising demand for sustainable energy solutions, homeowners are increasingly turning to lithium-ion battery banks for home energy. With round-the-clock operations and megawatt-scale equipment, facilities like Nanya Port consume enough electricity daily to power small cities. But here's the kicker: traditional diesel generators just won't cut it anymore.

12.8V65Ah

- Nominal voltage (V):12.8
- Nominal capacity (ah):6
- Rated energy (WH):76.8
- Maximum charging voltage (V):14.6
- Maximum charging current (a):6
- Floating charge voltage (V):13.6-13.8
- Maximum continuous discharge current (a):10
- Maximum peak discharge current @10 seconds (a):20
- Maximum load power (W):100
- Discharge cut-off voltage (V):10.8
- Charging temperature (°C):0-+50
- Discharge temperature (°C):-20-+60
- Working humidity: <95% R.H. (non condensing)
- Number of cycles (25 °C, 0.5C, 100%doD): >2000
- Cell combination mode: 32700-4*1p
- Terminal specification: T2 (6.3mm)
- Protection grade: IP65
- Overall dimension (mm):90*70*107mm
- Reference weight (kg):0.7
- Certification: un38.3/msds
