

Nermak lithium phosphate battery

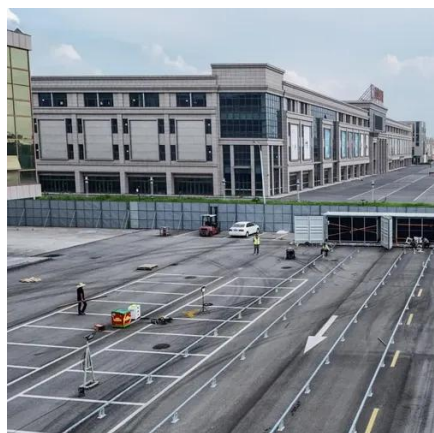

Overview

NERMAK's 12V 10Ah Lithium LiFePO4 Deep Cycle Battery is a high-quality, versatile power source. Lithium-ion technology, used in the construction of this maintenance-free battery, provides a high energy density and a long cycle life in comparison to standard lead-acid batteries. Overcharging. With its superior performance, long cycle times, and wide range of uses, this battery is perfect for a variety of applications, from emergency lighting to power wheels. The built-in BMS protection ensures safety and prevents overcharging, over-discharging, over-current, and short circuits.
