

New Energy Microgrid Leader

Overview

Schneider Electric, the global leader in the digital transformation of energy management and automation, has been ranked No. 1 in the 2025 Guidehouse Research Leaderboard for Microgrid Integrators, and recognized as a top five company globally in the Distributed Energy Storage. These companies offer AI-based microgrid planning for enhanced efficiency and sustainability, distributed energy infrastructure to ensure resilient energy supply, and multi-port microgrid systems for uninterrupted energy distribution and management. The rapidly expanding microgrid market is reshaping. Microgrid-as-a-Service (MaaS) makes this a reality, and is central to the energy environment of every data centre. The company was established to take on large projects, such as the JFK modernization.
