

New Zealand Energy Storage Project Partner

Overview

Paris, January 10, 2023 – Saft, a subsidiary of TotalEnergies, has been awarded a major contract by Meridian Energy to construct New Zealand's first large-scale grid-connected BESS. November 26, 2025 – New Plymouth, New Zealand – New Zealand Energy Corp. (“ NZEC ” or the “ Company ”) (TSX-V: NZ) is pleased to provide the following update regarding the ongoing work associated with the Tariki Gas Storage Project. NZEC, together with its joint venture partner L&M Energy Limited. Global infrastructure investor I Squared Capital has launched ANZA Power, a next-generation independent power producer (IPP) in Australia and New Zealand. Think of it as the “ Swiss Army knife ” of power grids: storing solar and wind energy, balancing supply-demand gaps, and even preventing blackouts during. New Zealand's energy future will be built on innovation, collaboration, and investment at scale. Pacific Channel has launched Fund V – a dedicated renewable energy fund targeting large-scale solar, wind, and battery energy storage projects across New Zealand. As lead designer, our strong technical expertise and agile problem-solving to design. The Darfield Solar & Energy Storage Project is a landmark 117 MW solar development in Canterbury, New Zealand, featuring optional battery storage of up to 106 MW / 200–400 MWh. Designed for a 40-year lifespan, it will generate 210 GWh annually—enough to power 23,000 homes—while reducing carbon.

New Zealand Energy Storage Project Partner

Darfield Solar & Energy Storage Project -- NZCE

Strategically located next to Fonterra's Kimberley Factory, it offers dual energy offtake pathways and strong grid connectivity, making it a key contributor to New Zealand's clean energy future.

[Saft energy storage system to support New Zealand's transition to low](#)

Saft lithium-ion technology will provide 100 MW power and 200 MWh storage capacity to support grid stability as intermittent wind and solar power increases in New Zealand

[New Zealand Energy Corp. Provides Update on Tariki Gas Storage Project](#)

NZEC is a publicly listed energy company focused on the development of oil, gas, and gas-storage opportunities in New Zealand. The Company holds interests in multiple heritage assets ...

Investing in New Zealand's renewable energy future

With an initial fund size of \$30 million to \$50 million and a five-year investment horizon, Fund V offers investors a unique opportunity to participate in ready-to-build projects that can ...

[Wellington Energy Storage Project Cooperation: Powering the Future ...](#)

The Wellington Energy Storage Project Cooperation isn't just another battery farm - it's a game-changer for New Zealand's energy transition. Think of it as the "Swiss Army knife" of power ...

[Building New Zealand's battery future at Huntly Power Station](#)

In a major step forward for New Zealand's renewable energy future, Genesis Energy has commenced construction on a 100 MW / 200 MWh Battery Energy Storage System (BESS) adjacent to the iconic ...

[New Zealand Energy Advances Tariki Gas Storage Project with](#)

New Zealand Energy Corp. has announced a significant advancement in its Tariki Gas Storage Project through a non-binding memorandum of understanding with Genesis Energy Limited.

[Transforming Energy Storage at](#)

[Glenbrook with 100 MW BESS , Beca](#)

Beca is transforming energy storage in New Zealand with the Glenbrook BESS project, which will power several thousands of homes and support the energy transition to renewable sources.

new zealand Archives

Energy storage developer Eku Energy has entered the New Zealand battery energy storage system (BESS) market. Genesis Energy has started constructing a 100MW/200MWh battery ...

[Launch of New Zealand's first utility-scale Battery Energy Storage](#)

WEL Networks and Infratec are proud to announce the launch of New Zealand's largest Battery Energy Storage System (BESS) with commissioning underway.
