

# Off-solar container grid inverter warranty

## Overview

---

Performance warranty: 25–30 years, usually guaranteeing 80–85% output after 25 years. Lithium-ion batteries typically come with 10-year warranties and a cycle limit (often around 6,000 cycles). How Long Do Off-Grid Solar Systems Last?

Lifespan. Off grid inverters are essential components in off-grid solar power systems, converting direct current (DC) from solar panels into alternating current (AC) that can be used to power various electrical appliances. As a leading off grid inverter supplier, we often receive inquiries from customers. TommaTech GmbH (hereinafter referred to as TommaTech) provides the following limited\* warranty for TommaTech off-grid, hybrid, power, and SPI inverters as well as charge controllers, including their accessories (hereinafter referred to as Products) to dealers, installers, official distributors. Off grid inverters are essential components in off grid solar power systems. Fully customizable to your exact needs. The durable container design is completely waterproof, protects you and your equipment from. For example, the SolarEdge inverter warranty covers string inverters for 12 years by default, with the option to extend coverage to 20 or even 25 years depending on the model. These inverter warranty periods protect you from defects and premature failures, but the process for filing claims isn't.
