

Panda-shaped solar power station

Overview

China Merchants New Energy Group, one of the country's largest clean energy operators, built a 248-acre solar farm in the shape of a giant panda. The first phase, which includes one 50-megawatt plant, was completed on June 30, according to PV magazine. Built by the company Panda Green Energy, the project has the capacity to power more than 8,000 homes with a total output of 50MW. A new solar power plant in Datong, China, however, decided to have a little fun with its design. Green Pandas The above image is an artist's impression of. In China, a solar company is turning heads with its latest design for a solar plant that's in the shape of a panda bear.
