

Photovoltaic bracket middle support

Overview

A mid clamp, often called a middle clamp or solar mid clamp, is designed to sit between two adjacent solar panels. It has two "lips" or grooves that hold the frames of two separate panels, securing them to the solar rail underneath. 5mm, thickness: 2mm, Clamp for Framed Panels part size: 11x58mm. Two type bolt, M8 x 50mm and M8 x 45mm, Thread pitch 1. Suit for 35 mm thickness solar frame panel and 40 mm thickness thickness solar frame. Mounts for roof, ground, pole and carport mounted solar PV systems at low wholesale prices. Designed for durability and precision, our brackets ensure stability and efficiency in residential, commercial, and industrial applications. It is made of high-strength aluminum alloy with an anodized for surface, providing excellent resistance and durability. We carry a wide variety of mounting systems and custom design each mounting system to order. For Unirac and ground-mount orders, please email sales@mrsolar.
